FRAGRAMT DOUBLE FLOWERING JAPANESE CRABS THE AMERICAN ROSE AND PLANT COMPANY SPRINGFIELD OHIO

GROW AND

BLOOM

Japanese Flowering Crabs (Malus)

FRAGRANT, DAINTY, DELIGHTFUL

Showlest and Most Gorgeous Spring Flowering Shrubs
Small ornamental trees or large shapely shrubs, coming as they do into a gorgeous showy mass of exquisite flowers in early spring, followed by gay and ornamental fruit, which persists far into the winter, producing a cheerful effect and attracting the birds.

The great profusion of large double fragrant flowers, almost obscuring the branches, gives the effect of clothing the shrub in shimmering transparent silk gauze. They are used largely in groups, high shrub borders or single specimens on the lawn, for their profuse early bloom, their dense glossy, handsome foliage which colors richly and their ornamental fruits present a picture of oriental splendor. They will grow in any ordinary garden soil and will amply repay special attention and cultivation with quicker and more luxuriant growth.

We offer you three of the most desirable and widely different varieties.

Large Specimen 3 Year Old Plants \$1.50 each; One each of the 3, \$3,00.

MALUS THEIFERA (Tea Crab)—A small tree with stiff spreading branches, covering itself with handsome rose pink flowers which are very fragrant. The blooms are followed with round showy fruit, light greenish yellow with reddish cheek. Foliage is oval, deep green, glossy and aromatic, hence its name "Tea Crab," for the people of Japan dry the leaves and brew them into a drink.

MALUS PURPUREA ELEYI—A new variety of great beauty having very large deep flowers followed by an abundance of yellowish green fruits. Foliage and wood is deep rich purplish red, enhancing the beauty of the flowers and fruits and rivaling the Japanese Red Maple. Very profuse bloomer, literally covering itself with a mass of bloom.

MALUS SCHEIDECKERI—Is also a very early bloomer, producing huge masses of flowers, bright rose colored (even on very young plants) in an upright bottlebrush formation on the stems, followed with an abundance of ornamental fruit.

JAPANESE IRISES (Kaempferi)

PLANT NOW FOR SUMMER BLOOM Colorful—Striking—Artistic—Distinctive

Their magnificence is indescribable as the great size of the flowers is noteworthy and their wonderful coloring seems to embrace every tint and shade in the rainbow, forming the most vivid and fascinating combinations. A mass of them in bloom is a most gorgeous sight as their striking beauty and strange oriental flowers can never be forgotten.

Their tall slender bladed deep green foliage is graceful and decorative and lends itself beautifully to landscape effects. They are fascinating planted around the garden pool or in front of tall growing shrubbery or in mass where they present a picture as richly hued as a marvelous tapestry.

They come into bloom usually in July and the secret of successful growth is to keep the ground well stirred, never allowing it to bake. They will thrive in any good garden soil.

Fine Plants 35c each; 3 for \$1.00; 12 for \$3.50.

ASTARTE—Double beautiful dark violet. Rich. CIRCE—Double dark violet blue, finely lined with white.

GOLD BOUND—A fine double, pure white enriched by a creamy glow from the gold banded center.

HERCULE—Double, clear lilac blue, soft and dainty. ISO-NO-NAMI—Double, soft blue, silvery veins. Distinctive and enchanting.

IPHIGENIE-Deep chinese lilac.

KOKO-NO-IRO (Purple and Gold)—Enormous double flowers, often ten inches across, Early and free blooming, Rich violet purple with white petaloids tipped violet. The conspicuous golden throat extends outward in sharp bluish white rays.

MAHOGANY—Purple manogany red. Large double flowers latest to bloom. The erect petals are prettily created.

MONIJI-NO-TAKI—Bright rose with deeper markings. An unusual and unique coloring.

PROSPERPINE—Single, bright rich blue produced by sanding of velvety blue on white.

REINE DES BULGARES—Deep blue shading to light blue with white veins. A very shapely grower and free bloomer.

UCHIU (Universe)—Dainty sky blue with golden and white center. Beautiful six petaled flowers of largest size on very tall stems; of wonderful lasting texture. which greatly prolongs the blooming season.

To Our Flower Loving Friends

New Varieties for New Ideas in Rare and Beautiful Plants for 1930

Modern homes demand modern gardening, hence unique and unusual plants are an absolute necessity. The world has been scoured for noteworthy material and we offer you the most useful, hardy and desirable new introductions.

As this is a day of pleasure gardens, of which there are many types, you will find in this book special items particularly well adapted for every purpose. Plants are offered with which you can produce a formal type, an informal livable type, a rock garden, a

Note the pleasing combination of Evergreens and Flowering Shrubs for Foundation Screen.

rose garden, and a perennial garden with gorgeous color harmonies. New kinds of interesting shrubs and flowering trees for backgrounds, screens, foundations, etc. Stately, cool evergreens handsome in summer and winter, contrast beautifully with the brighter tones of deciduous shrubs.

QUALITY PLANTS INSURE YOUR SUCCESS

Our first consideration is the success of our patrons in their planting operations and long experience, covering many years, has enabled us to grow stock of the highest quality, brimful of vitality, ready to grow as soon as planted in your garden.

Quality, Responsibility, Reliability and Service is assured with every order sent to us. Prices quoted are as low as is consistent with quality and dependability and cover all carrying charges to you.

Kind of Roses-Our aim is to produce those which will give our customers the best

An Outdoor Living Room

results. With the exception of a few of the very difficult and new novelty varieties offered, (these are so marked) we furnish sturdy own root plants, which will be shipped in thrifty growing condition in full foliage, having an abundance of strong active working roots and once established, it is not unusual for them to last a life time. They can be safely shipped and transplanted at any time during the season.

We are extremely grateful to our old friends and patrons and to new planters, all we can say is "Give us a Trial" and you too will become an old friend.

Be sure to look on page 23 for detail instructions on Shipping and Ordering.

NOTE-Detail List of Varieties and Prices of Fine Choice Flower Seeds on Order Blank.

KOLKWITZIA AMABILIS

BEAUTY BUSH

SOMETHING NEW IN A HARDY SHRUB

Beautiful in foliage and flower, its peculiar charm merits the name "Beauty Bush." It is a much branching grower, of about 6 feet in height, with the inner stems erect or ascending and the outer ones arching to the ground, the whole plant forming a gorgeous dome-shaped mass. The dainty tubular shaped flowers are deep pink, pleasingly mottled with orange in the throat. They are produced along the whole length of the branches in clusters at the ends of short, leafy shoots.

It blooms in early June, flowering freely each season. The handsome, almost evergreen foliage, with its deep glossy texture is decidedly ornamental and densely covers the arching branches.

Fine One Year Pot Plants, 40c each; 3 for \$1.00

BARBERRY THUNBERGI ATROPURPUREA

RED LEAVED JAPANESE BARBERRY

A really worthwhile, outstanding novelty in hardy shrubs. Similar in habit to the popular Japanese Barberry, but the foliage of this new variety is of a rich, lustrous, bronzy red, comparable to the most brilliant red-leaved Japanese Maples. This new Barberry becomes more gorgeously colored throughout the Summer and in the Fall; its foliage changes to vivid orange, scarlet and red shades. Full exposure to the sun is required to develop and retain the brilliant coloring at all seasons.

One Year Pot Plants 20c each; 3 for 50c; 12 for \$1.25 Two Year Field Grown Plants, 50c each; 5 for \$2.00

HYBRID FRENCH LILACS

ORNAMENTAL, COLORFUL AND FREE FLOWER-ING—FRAGRANT, GORGEOUS AND SHOWY FINE FOR CUTTING AND GARDEN

To those who are familiar with only the Common Garden Lilaes, these new and improved varieties will prove a revelation. Unlike the old sorts, they bloom on very small plants, and can be grown in a limited space, proving adaptable for both the large and small garden. Growth is symmetrical, foliage is ornamental and flowers are profusely produced. Great fragrant panicles of exquisite blossoms, good alike for cutting and adding great decorative qualities to the garden.

We offer you four of the finest varieties in assorted colors,

Two Year Old Plants, 75c each; 2 for \$1.00

HENRI MARTIN—Beautiful double flowers, Deep pinkish lilac in bud and when fully, opened flowers showing white markings within. Clusters are long, dense, heavy. Exquisite.

COERULEA SUPERBA—Flowers light purple in bud when fully open a clear blue; truss very large. Single, forming a saucer-shaped flower.

MME, ANTOINE BUCHNER—Rich carmine rose, developing to tender rose, shaded mauve. Double, blooms late.

MARIE LEGRAYE—Beautiful creamy white flowers of immense size. Single, Rather dwarf habit. One of the most popular varieties.

Exquisite New Roses

DISTINCTIVE, CHARMING, NOVEL

To look forward to some new and different varieties in your garden each season is a great joy to the real rose lover, and these we offer you are fascinating in form and coloring, of lustrous satiny texture, possessing remarkable qualities. You will delight in their dainty and unusual beauty, their bewitching and elusive coloring, their fine growth and glossy decorative foli-

White Radiance

CLIMBING RADIANCE—A beautiful climbing rose with all the good qualities of the bush Radiance parent. Flowers are equally as large with the same gorgeous sparkling coloring of carmine rose with opal and coppery reflections and delicious fragrance. It blooms freely every month of the season and the sturdy vigorous growth commends it to all planters.

One Year Plants, 35c each. Two Year Plants, 75c each.

DAME EDITH HELEN—A most distinct and really magnificent variety. Shapely buds and substantial, high-centered blooms, very fragrant. freely produced on long, strong stems. Most remarkable for the numerous and beautiful arrangement of its petals, and the pure, perfect vivid pink color.

One Year Grafted Plants, 60c each,

E. G. HILL—Just a new variety and the largest red rose yet produced. The flower is dazzling scarlet, shading to a deeper pure red as it develops. It produces long strong stems and the foliage is large and handsome. The buds are long and shapely, unsurpassed in beauty, except by the open flower, which is full, double and of beautifully formed petals.

One Year Plants, 40c each.

LADY MARGARET STEWART—A gorgeous new rose of the most satisfying richness of color. Pure sun-flower yellow, shaded with orange and red. Of perfect form, with a high-pointed center and enormous petals. Especially handsome foliage, free from disease.

One Year Grafted Plants, 60c each.

ROSE HILL—A delightful variety of pure rose-pink, having a uniform charming brilliance. The petals are smooth and satiny, long broad and always open perfectly. Very large double flowers of the firmest texture are borne on smooth strong stems. A good vigorous grower with ample foliage and practically no thorns.

One Year Plants, 35c each. Two Year Plants, 60c each.

TALISMAN—A novel production and perhaps the highest colored of all roses. Rich shadings and blendings of pure scarlet and gold. Beautiful cup-shaped buds and full flowers, with appealing fragrance. Very free bloomer on straight, stiff stems, clothed with vivid light green foliage.

One Year Grafted Plants, 60c each.

WHITE RADIANCE—Dainty ivory-white warmed with a faint blush tint. Large full petaled flowers are produced in great profusion on stiff erect stems the entire season and well into the fall. Foliage is thick and leathery, pleasing light green. It has all of the delightful characteristics of its parent, the famous Radiance, which is the most popular rose in America.

One Year Plants, 35c each. Two Year Plants, 75c each,

Souv. De Claudius Pernet

Choice Hardy Everblooming Roses

hardy everblooming varieties which will appeal to all lovers of new and desirable kinds. In this group will be found varieties for every purpose; some of the most remarkable of the whole rose family are named.

Fine 1-yr, plants, Ea....30c Choice of any 5 for....\$1.00 Entire list of 8 for 1.50

Fine 2-yr. plants, Ea...\$.60 Choice of any 4 for.... 2.00 Entire list of 8 for.... 3.25

BRIARCLIFF—A new and beautiful deep rose pink, considered a decided improvement over the well known Columbia. Buds are very large and long pointed; flowers are immense in size with high center and full with high center and full petalage of lasting substance. Blooms freely on long, strong stems.

DIXIE—The new dainty salmon pink. Has marvelous texture and form, like its parent, the gorgeous Radiance, but Dixie is more double. Large cupped, de-liciously fragrant flowers are produced freely.

White Radiance

Rev. F. Page Roberts

KILLARNEY QUEEN—Long pointed exquisite buds, opening to full bright sparkling pink blooms with enormous thick petals. Vigorous strong grower and very free flowering.

MRS. F. R. PIERSON-A gorgeous rich crimson shaded with vivid scarlet. Large deep petaled buds and flowers with exquisite enduring fragrance, are borne singly on strong stems. Foliage is abundant, dark green and glossy, while the growth is strong and robust. Blossoms profusely.

RAPTURE-Very striking in its vivid coloring of bright apricot, coral, rose and gold. Much more double than its parent, Mme. Butterfly, also larger and more prolific. Long, strong stems, beautifully clothed with handsome foliage. Perhaps the finest "fancy" colored rose produced since Mme. Butterfly.

Philadelphus Virginal

REV. F. PAGE ROBERTS—Coppery red buds of wonderful size and length, open into golden-yellow flowers, which are very, very double. The plants grow vigorously, with magnificent healthy foliage and branches freely. A supremely gorgeous Rose, developing to surpassing magnificence in size, color and fragrance, especially in cool weather, or in early Autumn.

SOUVENIR DE CLAUDIUS PERNET—Very large, full flowers with long deep petals of the most striking sunflower-yellow, deeper in the center. Blooms early and late. When it has become established in your garden, its growth is strong and vigorous, with large brilliant glossy green foliage, which is disease-resistant. It is not easy to get started; like all yellow roses, it requires pampering, but is worth your efforts. SOUVENIR DE CLAUDIUS PERNET-Very

WHITE RADIANCE—New. Ivory white with a faint blush tint. (See detail description Page 3).

PHILADELPHUS VIRGINAL

Smells and Looks Like Orange Blossoms

Smells and Looks Like Orange Blossoms

A most beautiful new variety, considered one of the finest introductions of recent years. Vigorous and tall in growth, it is absolutely hardy and dependable to produce an amazing profusion of flowers year after year. It blooms in June and continues over a long period, producing flowers in dense clusters, large and double, pure white and sweetly scented. A cluster of these chastely beautiful, fragrant flowers resembles a bride's bouquet of orange blossoms. Justly called a "Grand Shrub" adding beauty, grace and perfume to every garden.

COLUMBIA—Enormous, full and perfectly formed fragrant flowers of clear rose pink, borne on nice, stiff stems; unequalled for cutting. Growth is vigorous and bushy and a very prolific bloomer. Ideal for the garden.

GENERAL Mearthur — One of the most brilliant reds (of all Everbloomers). Flowers are large, full and fragrant, produced constantly from early Spring until late Spring.

JONKHEER J. L. MOCK—Full double flowers of brilliant carmine-rose on outside of petals, turning silvery-rose toward the center. Wonderful garden variety.

Royal Red

Roselandia

LOS ANGELES—Long-stemmed flowers of a luminous flame pink, toned with coral and shaded with translucent gold at the base of the petals. The buds are long and pointed and expand into immense flowers that are beautifully formed and possess an intense fragrance of pure deliciousness.

MME. BUTTERFLY—A perfect harmony of bright pink, apricot and gold. Buds are medium in size, perfect for corsages, while the open flowers are lovely in form, texture and fragrance.

MRS. AARON WARD — One of the most beautiful roses in existence. Strong, hardy grower, bearing large, full, cupped flowers. Everyone loves the color which is coppery-orange shading golden-orange.

ROYAL RED—A new intense crimson-scarlet of the richest coloring and texture. Blooms are enormous in size, very full and as double as a Rose can be. It possesses a most delightful June-rose fragrance.

ROSELANDIA—Color is a golden orange suffused with a lustrous glow of apricot in the heart, frequently tinted red on the reverse of the outer petals. Buds are long and pointed, deliciously sweet scented. Very desirable for garden planting on account of its free flowering habit and rapid strong growth.

WHITE KILLARNEY-The buds are exqui-

sitely long and pointed, unfolding broad wax-like petals into enormous pure snow-white flowers.

Abelia Grandiflora

ABELIA GRANDIFLORA

BUSH ARBUTUS-BROADLEAVED EVERGREEN

Just a few years ago this was thought to be a warm climate plant only; today there are many fine specimens in northern gardens, and as it becomes known that it is hardy, it will be universally popular. From May till frost the graceful arching branches are covered with clusters of tubular shaped white flowers faintly tinted pink. The leaves are small, lance shaped and glossy green with metallic sheen at the approach of winter. It is particularly useful as specimens, for hedges, or in groupings for mass plantings around foundations or elsewhere. Ultimate height, 4½ to 5 feet, but if the long tender shoots are pinched back during the growing season, the plant becomes very dense and compact. It may be kept quite dwarf by trimming.

Fine 2 year old plants 75c each; 2 for \$1.00

BRIARCLIFF—A new and beautiful deep rose pink. Buds are very large and long pointed; flowers are immense in size with high center and full petalage of lasting substance.

COMMONWEALTH — A magnificent new variety having large, long pointed buds with open, double flowers of great lasting substance. Deep lively uniform pink color and delicate fragrance. Robust, upright grower. Particularly good during the Fall months.

CRUSADER—A brilliant velvety crimson. The blossoms are gorgeous, with delicious fragrance. Produced freely; of perfect formation.

EDEL—Warm ivory-white, of lovely globular form with a faint and pleasing fragrance. Very free flowering, growth most robust with strong erect stems and ornamental foliage. Decidedly hardy, it is a superb sort for garden effect.

golden yellow without a tinge of any contrasting color. Vigorous grower, bearing an abundance of perfectly formed, deliciously fragrant flowers on stiff heavy stems.

KAISERIN AUGUSTA VICTORIA—A continuous bloomer of full, double flowers which are a creamy white, slightly lemon-tinted near the center.

LA FRANCE—Color a lovely soft, silvery pink, Flowers and

buds are long and wondrously beautiful, possessing the delicious La France fragrance.

LOS ANGELES— Long-stemmed flowers of a luminous flame pink, toned with coral and shaded with translucent gold at the base of the petals. RADIANCE—A brilliant blending of carmine-rose with opal and coppery reflections, extremely, brilliant, in effect. Fine hardy bloomer unequaled for bedding and cutting.

RED RADIANCE—Color brilliant dazzling crimson. A strong, sturdy grower having wonderful vitality.

REV. F. PAGE ROBERTS—Coppery red buds of wonderful size and length, open into golden-yellow flowers, which are very, very double. The plants grow vigorously, with magnificent healthy foliage and branches freely.

ROSE MARIE—Fragrant. clear rose-pink flowers of large size and exquisite shape, borne freely on plants of remarkable vigor and health. A quite distinct variety in coloring, proving delightful for the garden.

SUNBURST—Immense in size, the color is an exquisite orange-copper and golden yellow, extremely brilliant.

TEMPLAR—A gorgeous, clear crimson-red, Flowers are very large and full with bold dark green foliage. One of the most satisfactory new roses for garden planting.

Dear Sirs: March 26, 1929.

I received the box of Roses and I do sincerely thank you for such wonderful large plants. From now on, my orders will be with you folks.

ith you folks.
I am sending you another order this week. Sincerely,
MRS. M. MIELKE, Ohio,

Gentlemen:

Be sure and send me your catalog of roses in the spring. I bought eighteen roses from you this spring and they have done better than the budded dormant roses I purchased from another firm. I will want some more. Very truly yours,

SADIE K. SULLIVAN, Colorado.

Hybrid Perpetual—Rugosa and Moss Roses

Three very desirable types, ruggedly hardy, vigorous growers and prolific bloomers. Showy fragrant flowers of enormous size and brilliant colors are produced in great profusion. Rugosa Hybrids have curiously wrinkled distinct foliage and flowers are followed by large brilliant red seedpods. They make beautiful specimens when planted alone or among shrubs and are unequalled for an everblooming hedge.

Fine One Year Plants, 30c ea.; 4 for \$1.00; 9 for \$2.00 Strong Two Year Plants, 75c ea.; 4 for \$2.25; 9 for \$4.00

AMELIE GRAVEREAUX (New Hybrid Rugosa)-Fine new variety having medium size buds, opening to double, cupped, dark purplish red blooms of good fragrance, borne on long, strong stems. Blooms freely until fall. Beautiful glossy crinkled foliage.

AMERICAN BEAUTY (Hybrid Perpetual)-Known the world over for its magnificent large glowing crimson flowers. Foliage large, leathery; hardy in all sections; it produces a constant profusion of massive, rich fragrant bloom.

BLACK PRINCE (Hybrid Perpetual)—Extremely hardy, producing a profusion of deep, blackish-crimson flowers. Buds and flowers are large, full and globular.

F. J. GROOTENDORST (New Hybrid Rugosa)-An everbloomer producing great masses of huge brilliant orange-crimson trusses of flowers. Wonderful for shrubbery border or an everblooming

HENRI MARTIN (Moss)—Deep carmine flowers shaded with bright crimson are produced in abundance. The buds are especially well mossed and the fragrance is delightfully sweet. One of the most beautiful and strikingly bold varieties.

MOUSSELINE (Moss)—The best white moss Rose. Large, full blossoms are the purest white with fine fragrance. Both buds and flowers are invested with a wealth of green moss and are produced almost constantly.

It blooms continuously from early June until stopped by frosts. The flowers are large and full, of the brightest crimson-scarlet, fragrance is delicious and lasting. Growth is rapid, sturdy and erect, with splendid healthy foli-age. There is no rose to compare with it for blooming.

Fine 1 Year Plants 25c each. Strong 2 Year Plants 40c each.

PAUL NEYRON (Hybrid Perpetual) - A beautiful clear rose-pink, immense in size, sometimes measuring six inches across. A strong upright grower and an abundant bloomer.

PINK AMERICAN BEAUTY (Hybrid Perpetual)—Bright rose-pink of great richness and uniformity. Large pointed buds developing into full double flowers having delightful fragrance. Exceptionally free bloomer and vigorous grower. A superb variety.

WHITE AMERICAN BEAUTY (Hybrid Perpetual)—The best snow-white Rose ever produced, a single plant bearing hundreds of massive, charmingly veined, marvelously fragrant white flowers.

Pachysandra Terminalis JAPANESE SPURGE

Evergreen Vine Ground Cover-A trailing plant 6 to 8 inches high, forming broad mats of bright glossy green foliage. A ground cover which will thrive in any situation, growing to perfection in the densest shade. A most attractive finished effect can be secured by planting under evergreens, shrubs, trees; for steep terraces for bordering walks and drives.

Strong Heavy Plants 35e each; 3 for \$1.00.

CLIMBING ROSES

NEW AND LARGE FLOWERING TYPES

The wonderful new varieties having gorgeous flowers and ornamental insect-proof foliage. They are hardy every-where (excepting the Climbwhere (excepting the chimo-ing Teas) and will produce an abundance of fragrant adorable blossoms on long stems. Particularly well adapted for covering porches, pillars, fences, and for screening undesirable views and buildings.

Fine one years plants, 25c each; Your choice of any Six for \$1.00.

Large two year plants, 50c Your choice of any Five for \$2.00. each;

Emily

ALIDA LOVETT—Strong grower, free bloomer, flowers produced on long stiff stems, of lively, bright shell-pink; shadings of rich sulphur at the base.

BESS LOVETT-Clear bright red, which is retained as long as the flower lasts; full, double flowers of large size are borne in clusters, on long, strong stems.

CLIMBING AMERICAN BEAUTY—Produces an abundance of vivid rosy-crimson flowers in June and occasionally throughout the season, which possesses the same delicious fragrance as the old American Beauty.

CLIMBING RADIANCE (See detail description, Page 3).

DR. W. VAN FLEET-An exquisite pink, deepening to rosy flesh.

EMILY GRAY—Most gorgeous, clear yellow color, even the mature flowers becoming a pleasing ecru. The growth is strong and robust; foliage is thick and waxy, deep crimson when young, changing to deep green as it ages.

EUGENE JACQUET-A moderately new variety, blooming very early and remaining in flower a long time. Sweet scented flowers of rich bright carmine are produced in huge

shapely clusters. Vigorous thrifty grower with fine glossy foliage. Very hardy.

Alida Lovett

GARDENIA—(Hardy Marechal Niel) Deep, rich, golden-yellow flowers, passing to creamy-white.

JACOTTE—Delightfully sweet scented, large flowers of light salmon-orange with golden A strong, healthy grower, with bronzy colored branches and rich green, glossy discase resisting foliage. Wonderfully distinct moderate climber with blossoms as beautiful as any Tea rose.

MARECHAL NIEL—(Climbing Tea) Universally claimed the most profuse bloomer of all climbers, single plants producing as many as two thousand blooms at one time. Color is faultless, the waxy petals showing rich, golden shades, (not hardy in the north).

MARY LOVETT—Size, shape and delicacy of the most exquisite Tea rose. Large double creamy-white flowers.

PAUL'S SCARLET CLIMBER—No other rose can compare with it for brilliance of color, which is a vivid scarlet. The flowers are of medium size, semi-double.

SILVER MOON—Sturdy, rapid grower, producing a wonderful profusion of extraordinary large Clematis-like flowers, silvery-white in color, with bright readon yellows with bright golden-yel-low stamens in center.

Paul's Scarlet Climber

Mile. Cecile

Hardy Polyantha or Baby Roses

PLANT FOR A CONTINUOUS MASS OF BLOOM

Ideal for bordering beds, edging walks and planting in solid masses; they surpass all others in continuous blooming qualities from early Spring to late Fall. Entirely hardy and especially adaptable for cemetery planting, where they must withstand the most unfavorable weather conditions without care of attention.

WHITE MAMAN COCHET—A marvelous bedding kind, which produces ideal flowers for cutting; full and double, dainty white, sometimes tinged pale blush.

YELLOW MAMAN COCHET—Long, pointed buds and large, shapely flowers of deep lemon-yellow.

ARTEMISIA — Silver King Something New and Different—A Plant of Rare Beauty for Landscape or Cut Flowers

For landscape effect from early summer until late winter, it is the most outstanding plant we have ever seen. Its bright silver-colored stems and foliage blend harmoniously with other foliage or blooming plants and its rich striking beauty in form and color is first to attract attention regardless of its surroundings.

For beautiful airy foliage to combine with cut flowers, it has no equal, as it does not wilt or shatter off and can be carried dry indefinitely without losing its color. When used with sparkling pink flowers, such as Radiance Roses, the effect is both indescrib-

able and irresistible. The foliage matures early in the summer and quickly hardens to a state when it can be cut and used without moisture.

It thrives in ordinary soil, growing to a height of about three feet in almost perfect symmetrical form. The stems are well branched and thickly covered with bright silver colored foliage, delicate and lacy like. It belongs to the perennial class, producing its entire new growth from the roots each year.

Large Field Plants 50c each; 2 for 75c One Year Pot Plants 30c each; 2 for 50c

Thuja (Tom Thumb)

Coniferous Evergreens

Cool, Gracious, Dignified

Nothing approaches in richproperly arranged ness a planting of fascinating Evergreens. Many striking combinations of color, height and varied foliage are possible; and best of all, they are as effective in Winter as Summer

Varieties offered cover a wide range of forms in the hardiest and most reliable varieties.

Juniper Pfitzeriana

Thuja Orientalis

Pleasing effects, both formal and informal, can be attained with them.

These Evergreens are field grown, twice transplanted and have strong roots with bushy tops, measuring from 12 to 15 inches high. They are ready to plant on your lawn or in your garden as single specimens, or massed for foundation screens, and will develop into fine specimens of which you will be proud.

Delivered to you for \$1.00 each.

JUNIPER PFITZERIANA (Pfitzer's Juniper) A very hardy, valuable, spreading variety with silvery green color. The foliage has an airy feathery appearance and also has two prominent white lines on the under side. It is a perfect grower in any section and is one of the few evergreens that will stand considerable shade.

JUNIPER VIRGINIANA GLAUCA (Silvery Red Cedar)—Beautiful blue, glaucous foliage that is conspicuous at all seasons of the year. The growth is quite rapid, the long, slender branchlets producing a graceful effect. Columnar in outline. A useful and valuable variety, thriving in all localities.

Thuia Pyramidalis

THUJA ELWANGERIANA (Tom Thumb Arborvitae)—A dwarf growing sort having feathery lacey foliage. Green in Summer, changing to a bronze hue in Winter. Fine for foundation plantings.

THUJA GLOBOSA (Globe Arborvitae)—A very dwarf, compact, globe form with attractive bright green dense foliage. Well adapted for foundation planting and splendid for tubs and porch boxes.

THUJA HOVEYI (Hovey's Golden Arborvitae)-Dwarf, dense evergreen, having light green foliage, tipped golden, neat and attractive. Egg-shaped. Popular for beds, borders, cemeteries, house decoration and foundation plantings.

THUJA ORIENTALIS (Chinese Arborvitae) —Small tree, compact and bushy, it is conical in shape; branches stand edgewise to the trunk; foliage is bright green, bronzy in winter

Thuja Wareana

THUJA PYRAMIDALIS (Pyramidal Arborvitae)-Undoubtedly the most popular Arborvitae Columnar, upright habit; green cedar-like foliage. Tall compact, hardy grower; very desirable for formal effects.

THUJA WAREANA (Ware or Siberian Arborvitae)-Its lowgrowing, dense form and beautiful bluish-green foliage give it distinct character. Globular in shape when young, but gradually assumes a more upright habit. Foliage is heavy and deeply crested of a handsome sage green. Invaluable for foundation plantings.

Thuia Globosa

Cydonia Japonica (Scarlet Japan Quince)

HARDY FLOWERING SHRUBS

FOR SINGLE SPECIMENS—FOR MASSING—FOR FOUNDATION SCREENS

Whether planted individually or collectively, the shrub is an important feature in the adornment of any ground. At the edges of the lawn, along walks or drives, or in distant corners, a collection of shrubs may be gathered that will give a succession of bloom from the opening of Spring until frost comes to destroy the flowers.

In the list that follows will be found shrubs for all these purposes. The possibilities of effective combinations are

These are all strong two and three year old, field grown plants that will make well-developed specimens, giving immediate effect and all will bloom profusely this season.

SPECIAL OFFER—Any 50c Shrubs, 3 for \$1.00; Any 75c Shrubs, 2 for \$1.00,

ABELIA GRANDIFLORA-(See Detail Description on Page 5).

ALTHEA BUSH (Rose of Sharon)—Double red, white and pink. Grand free growing, flowering Shrubs. Perfectly hardy. Very desirable as they bloom in August and September. Of easiest culture, fine for hedges or single specimens. 50c each.

AMYGDALUS ROSEA FLORA PLENA (Flowering Almond)—A beautiful dwarf shrub, literally covering its stiff erect branches with exquisite double rose-like flowers before the leaves appear. Soft pink in color, delightfully fragrant. 75c each.

BUTTERFLY BUSH (Summer Lilac) — Blooms continuously all summer. Long cylinder like panicles of bloom, beautiful purple lilac in color, having a pleasing fragrance which attracts scores of butterflies. The long gray green leaves add greatly to its beauty. 50c each.

CORNUS SIBERICA (Dogwood)—A hardy, vigorous shrub with upright, bright bloodred branches. Flowers are creamy-white in numerous, flat-topped clusters followed with light-blue fruit. 50c each.

CYDONIA JAPONICA (Scarlet Japanese Quince)—A brilliant flowering shrub, producing dazzling scarlet flowers, very early in the spring, followed by yellowish-green aromatic fruits. Bright green glossy leaves and spreading compact branches. 50e each.

DEUTZIA ROSEA—Showy, hardy and ornamental. Of easy cultivation and rapid growth, with a wealth of double, rosy-pink drooping, bell-shaped flowers. 50c each.

EUONYMUS JAPONICA (Japanese)—A compact upright-growing evergreen shrub with beautiful heavy deep green glossy foliage. Beautiful for specimens in tubs, vases, win-

Deutzia Rosea

dow or perch boxes. (Is not hardy in the North). 50c each.

25c each: 3 for 60c.

Tritoma (Red Hot Poker)

Ladysmith

Quaker Lady

Mrs. Chas. Dorr

Miss Lingard

Choice Chrysanthemums

The lateness of the blossoming period of these hardy plants, when every other flower in the garden has succumbed to the frost, commends them and accounts for their universal popularity. They are unaffected by ordinary freezing, so hold full sway in the garden with their wealth of rich oriental coloring, lending a cheerful aspect in late Fall and early Winter.

Fine Plants, 25c each; 6 for \$1,00

GLORY OF SEVEN OAKS — A clear golden-yellow. Strong grower and very prolific bloomer. The first yellow to bloom.

on receipt of goods, it this way.

We cannot guarantee plants to grow for you, as this is governed by planting, care and attention given them, but each and every one we send you will respond eagerly if set out in good garden soil and furnished with water and sunlight.

with water and sunlight.

Volck — Certain Death

TO APHIS, RED SPIDER. MEALY BUGS. MILDEW

A refined oil emulsion that may be used on the most tender foliage with perfect safety. Effectually controls mealy bug, white fly, red spider, aphids, thrips, etc. Does not discolor foliage, but rather imparts a bright glossy appearance.

Viburnum Carlesii

LARGE FLOWERING MIXED GLADIOLUS Selected Quality Bulbs—12 for 50c

Grown for the express purpose of supplying our customers with a superb strain of exquisite sorts and colors, only choice named sorts that give you really fine results.

Distinct, New and Rare Viburnums HARDY, DECORATIVE AND UNUSUAL

CARLESH—Has round heads of rose tinted white waxy flowers, possessing a powerful and delightful fragrance. Each floweret is tubular shaped, the base deepening to a deep rose-pink. Grows symmetrical and bushy, with decorative channeled deep green foliage; clear brown stems. Blooms freely.

RHYTIDOPHYLLUM (Leatherleaf) — Distinct large crinkled leaves, dark, bronze green in color. Grows compact and the gorgeous decorative foliage makes it a valuable addition to really worth-white shrubs. Large heads of showy yellowish-white flowers. Fruit red changing to black.

Fine Field Grown Plants 18 inches high. \$2.50 each; 2 for \$4.00

To insure safe transplanting, we will ship these plants with ample soil around the roots, wrapped in burlap.

Hugonis—The Golden Rose of China

Blooms Three Weeks Earlier Than Other Roses

A unique species, as it is ornamental as a shrub, either to mass or as single specimens. For a beautiful hedge it is unequalled; it produces numerous arching and drooping sprays which are lined on both sides to the very tip with closely-set wideopen flowers of the most gorgeous goldenyellow crepe-like blooms. After blooming, the pale-green foliage on curious red-brown twigs, turns to soft purple. Hugonis long remains an object of beauty, as it retains its finely veined and delicately cut miniature leaves until the ground is frozen.

Field Grown Plants, Properly Pruned Ready to Set Out in Your Garden......50c each One Year Pot Grown Plants.....25c each

Hugonis-"The Golden Rose of China"

F. J. Grootendorst-"The Baby Rambler Rugosa Rose"

Showy - Everblooming - Hardy

Worthy of a prominent exhibition, either as a single specimen or massed; or, kept about 4 feet high, it makes a remarkable everblooming hedge. It possesses the erect, spiny stems and tough curiously wrinkled foliage the notable vigorous and healthy

growth of the rugosa family and all of the continuous blooming habit of the polyantha family. Small, daintily fringed flowers of bright red in large clusters are pr duced throughout the growing season.

Field Grown Plants, Properly Pruned Ready to Set Out in Your Garden......50c each

FINE ORNAMENTAL FOLIAGED AND FLOWERING SHRUBS

Make an Attractive and Satisfactory Foundation Screen

A permanent and complete planting is offered in these combinations, at such decided reasonable prices and at such a saving to our customers, that everyone may acquire an artistic setting for their homes.

The most pleasing and attractive effects may be obtained in the proper arrangement of shrub plantings, and once they are set out, they will thrive for years, increasing in beauty each season.

In the plans suggested, each variety has been properly placed for height and habit of growth, color, and blooming season of flowers.

The shrubs in these combinations are large two year old field grown plants to produce immediate effect and prices cover delivery charges to your door.
